EDUCATION

University of Michigan 2027 (expected)
Ph.D. in Industrial & Operations Engineering (GPA: 3.9/4.0)

University of Michigan 2020
B.S.E. and M.S.E. in Industrial & Operations Engineering (GPA: 3.8/4.0)

RESEARCH INTERESTS

Methods: risk analysis, simulation, game theory, machine learning, optimization
Applications: supply chains, infrastructure systems, sustainability, resilience, ethics

JOURNAL PAPERS

N. Feeny, A. White, and S. Guikema, "A quantitative spatial approach to estimate cellular network coverage during natural hazards using publicly available data," *Journal of Infrastructure Preservation and Resilience*, vol. 7, no. 1, p. 14, 2026.

Nolan Feeny, R. Flage, and S. Guikema, "Collective Action vs. Individual Action AND A Discussion of The Ethics of Using Large Language Models in Research," *Risk Analysis*, 2026.

SUBMITTED PAPERS

WORKING MANUSCRIPTS

Nolan Feeny and S. Guikema, "Improving Synthetic Supply Chain Network Generation Techniques," *Taylor & Francis, International Journal of Production Research*, 2026.

C. Doehring, **Nolan Feeny**, Z. Cajigas, M. Zheng, and S. Guikema, "Improving How the IPCC Addresses Uncertainty through Knowledge Decomposition," *npj Climate Action*, 2026.

TEACHING EXPERIENCE

Primary Instructor, Engineering Economics (IOE 201)	Fall 2026
Invited guest lecturer, PhD Seminar (IOE 802)	Oct 2026
Invited guest lecturer, AI: The Future of Work (IOE 491)	Sep 2026
Course Designer, AI: The Future of Work (IOE 491)	Summer 2026
Graduate Student Instructor, Risk Analysis (IOE 561)	Winter 2026
Invited guest lecturer, PhD Seminar (IOE 802)	Oct 2025
Graduate Student Instructor, Derivative Instruments (IOE 453)	Fall 2025
Invited guest lecturer, Risk Analysis (IOE 561)	Feb 2025
Graduate Student Instructor, Game Theory (IOE 517)	Fall 2024
Invited guest lecturer, Simulation (IOE 574)	Nov 2023
Graduate Student Instructor, Design Your Engineering Experience (ENGR 110)	Fall 2020

INDUSTRY EXPERIENCE

Epic Systems 2021 - 2023
Technical Solutions Engineer Verona, WI

- Managed projects of scope ranging from high-level operations to technical system details with nurses, analysts, directors, & executives
- Facilitated smooth transitions during go-lives by traveling and training hospital and clinic staff onsite
- Communicated confidential and sensitive information to managers and directors in high-pressure environments with a calm sense of urgency

Stoneridge Inc Summer 2020
Tauber Global Operations Intern Ann Arbor, MI

- Formalized Sales & Operations Planning process to streamline proactivity for MirrorEye, an emerging product with significant expected increase in demand
- Forecasted 5 different demand scenarios during a pandemic to ensure robust production preparedness for the short and long term future
- Recommended production capacity changes using ProModel simulation to increase inventory turns by 280% and decrease days of inventory by 65% by 2025

Dow Chemical Summer 2019
Supply Chain Intern Midland, MI

- Quantified value of potential new truck center to recommend decision on its purchase
- Analyzed plant shutdown and emissions datasets to identify cost reducing measures of $14m
- Visualized emissions via Power BI with a team of 6 to highlight sustainable trucking carrier options

MECC Consulting Group 2018–2020
Consultant, External VP, Advisor Ann Arbor, MI

- Spearheaded Chicago trip to encourage professional and social networking while facilitating partnerships with consulting, finance, and operations companies
- Mentored roughly 20 newer members by providing networking opportunities, casing, resume reviews, and behavioral preparation
- Recommended ticket pricing strategy using 600,000+ rows of data from the Detroit Lions ticket office for rollout of new online markets via Excel, Pivot Tables, and Tableau
